CleanShield

Acrylic Mask Dispenser, 2 Boxes Capacity DPM03

The mask dispenser keeps disposable face masks organized and accessible while helping protect unused supplies from unnecessary handling. Its clear wall-mounted body provides an immediate view of stock levels and supports quick refilling. The compact two-box format is useful where different mask types or backup supplies need to remain available at one station.

Applications

- Disposable masks
- Medical and healthcare facilities
- Food processing areas
- Laboratory
- Janitorial
- Industrial workplace
