CleanShield

Acrylic Safety Glasses Dispenser DPSG01

The dispenser creates a dedicated storage point for safety glasses so eye protection remains visible and ready for use. Its clear wall-mounted design allows quick stock checks, while the lower access opening supports convenient dispensing. Keeping eyewear organized near work areas or entrances helps encourage consistent use and reduces clutter around safety stations.

Applications

- Safety glasses
- Eye protection stations
- Industrial workplace
- Laboratory
- Food processing areas
- Warehouse and manufacturing areas

Technical Specifications
