CleanShield

# Cut-Resistance Gloves Level A4, Micro Nitrile Coated Palm

# FNCR300

This product combines ANSI Cut Level A4 protection with exceptional comfort and dexterity, making it ideal for precision handling tasks.Touchscreen compatibility allows users to operate mobile devices and equipment without removing their gloves, improving efficiency and minimizing interruptions. Its lightweight, breathable design helps reduce hand fatigue during extended wear, while the micro nitrile foam palm coating provides a secure grip in dry, wet, and light oily conditions for improved control. This product is well suited for manufacturing, assembly, material handling, maintenance, and other demanding industrial applications.
