Spandex Shell Nitrile Micro Foam Palm Coated Gloves

FNN300

Designed for precision handling and everyday work, these micro nitrile palm coated gloves provide a comfortable fit, reliable grip, and long-lasting durability. The palm coating offers a secure grip in dry, wet, and light oily conditions, while providing excellent resistance to wear and abrasion.The lightweight nylon liner is soft, flexible, and comfortable to wear, allowing for excellent finger movement and control when handling small parts and tools. The breathable coating helps keep hands cool and comfortable throughout the workday.

Technical Specification

• Colour:	Black
• Gauge:	15 gauge
• Coating Finish: Foam	
• Length:	240 mm ±10 mm
• Palm Width:	108 mm ±10 mm
• Country of Origin:	China
• Coating:	Nitrile micro-foam palm coated
• Material:	Nylon / Spandex shell with nitrile micro-foam coating

Sizes

	Length (+/- 10 mm)	Palm Width (+/- 10 mm)
S	230 mm	104 mm
M	240 mm	108 mm
L	250 mm	112 mm
XL	260 mm	116 mm

Abrasion Resistance:	Level 4
Blade Cut Resistance:	Level 1
Tear Resistance:	Level 3
Puncture Resistance:	Level 1

Application

- General handling
- Light assembly
- Warehouse and logistics
- Mechanical work
- Packing and inspection work
- Maintenance tasks

Features

- 15-gauge nylon/spandex liner
- Nitrile micro-foam palm coating
- Enhanced dexterity for precision tasks
- Breathable and lightweight design
- Seamless knit construction
- Good grip in dry and light oily conditions
- Designed for general mechanical risk protection

Packaging

12 PAIRS / PAIRES x 10 BAGS / SACS = 120 PAIRS / CASE / PAIRES / CAS

Compliance

EN388:2016
4131X

- EN ISO 21420:2020
