CleanShield

Cut-Resistance Gloves, Level A5

LCR300

The cut-resistant glove helps workers handle sharp or abrasive materials with greater confidence while maintaining the flexibility needed for daily tasks. Its supportive knitted liner moves naturally with the hand, and the coated palm provides dependable contact with parts and tools. It balances protection, grip, and comfort for repetitive industrial handling.

Application

- General handling
- Light assembly
- Warehouse and logistics
- Mechanical work
- Packing and inspection work
- Maintenance tasks

Technical Specification

- Colour: Black on Grey
- Material: HPPE liner with latex coated palm
- Coating: Latex palm coating
- Gauge: 13 gauge
- Country of Origin: China

Sizes	Length (+/- 10 mm)
