CleanShield

Cut-Resistance Gloves Level A4, Sandy Nitrile Coated Palm MCR300

This product is designed to provide dependable hand protection without compromising comfort. Featuring ANSI A4 cut resistance and a lightweight HPPE liner, these gloves offer a soft, flexible fit that supports natural hand movement and all-day wear.

The sandy nitrile palm coating provides a secure grip and added durability, helping workers maintain control when handling materials and equipment. Comfortable enough for extended use, the product is well suited for food manufacturing, packaging, and general production environments where both protection and productivity are essential.

Application

- Handling sharp objects
- Packing work
- Sheet metal handling
- Food industry work
- Automotive applications
