CleanShield

Microfiber Multipurpose Cloth - 16” x 16” MFC1616

The microfiber cleaning cloth is made from a premium polyester and polyamide blend designed to effectively trap dust, dirt, grease, and moisture. Its highly absorbent construction delivers streak-free cleaning, while the soft yet durable material supports repeated use with or without cleaning chemicals.

Available in multiple colors for cleaning zone identification, the product helps reduce the risk of cross-contamination and is well suited for food processing, healthcare, janitorial, and general maintenance applications.

Application

- Dusting, polishing, light scrubbing
- Chemical-free cleaning
- Household cleaning
- Industrial cleaning
- Clinical and patient areas
- Kitchens and food processing environments

Construction

Colour: White | Blue | Green | Yellow | Red | Gray

Size	16" × 16"
Weight	41 g
Weight per unit area	250 g/m²
Thickness	0.70 mm
Water absorbency (dry)	480 mL/m²
Material Composition	Polyester: 88% Polyamide: 12%

Features

- Very high degree of softness
- Highly absorbent
- Resists most solvents
- Easily traps dirt
- Great for water-based liquids and oils
- Can be washed hundreds of times

Packaging

10 PIECE / PIÈCE x 20 BAGS / SACS = 200 PIECE / CASE / PIÈCE / CAS
