CleanShield

Latex Fully Coated Micro Palm Thermal Gloves MLW100

It keep workers productive at 35°C to -10°C cold working environments. Its insulated construction helps maintain comfort during extended wear, while the fully coated design keeps hands dry when handling wet or damp materials.Touchscreen compatibility allows users to operate mobile devices and equipment without removing their gloves. The high-visibility orange shell also enhances worker visibility, making the MLW100 well suited for food processing, meat and seafood processing, cold storage, food manufacturing, warehousing, and material handling.

Application

- Cold storage
- Warehouse handling
- Outdoor work
- Construction
- Material handling
- General industrial work
- Maintenance work

Technical Specification

- Colour: Black on Orange
- Shell: 15 gauge polyester outside
- Inner Lining: 7 gauge acrylic terry inside
- Coating: Fully coated smooth latex
- Glove Type: Thermal work glove
- Palm Finish: Sandy finish on palm and thumb
- Protection: Mechanical risks and cold risks
- Country of Origin: China

Sizes	Palm cm	Cuff cm
S	11.2	8.6
M	11.4	9
L	11.7	9.4
XL	12	9.7

Features

- Touchscreen compatibility
- Fully coated latex construction
- Sandy palm and thumb for improved grip
- Designed for mechanical and cold-risk protection
- Comfortable knitted cuff
- Suitable for cold handling and general industrial use
