CleanShield

Food Grade Flat Lid

PFL20

The flat lid provides a clean, secure closure for compatible food-grade pails used to store or transport ingredients and materials. Its straightforward design supports easy stacking and organized handling, while the tight fit helps protect contents between uses. Multiple colour options can assist identification and separation within busy processing or storage areas.

Applications

- Food ingredients storage
- Food processing and packaging
- Chemical and industrial materials
- Liquids and powders storage
