SoftCover PP Balaclava Hood

PPBLC10

SoftCover PP Balaclava Hood is designed for reliable hygiene protection in environments requiring full head coverage and contamination control. Made from soft, lightweight, non-toxic non-woven polypropylene, it ensures comfortable wear while maintaining effective protection. The disposable design supports convenient single-use applications, while the latex-free elastic face opening and neck closure provide a secure and flexible fit. The full-head enclosure offers complete coverage for enhanced hygiene compliance.Ideal for use in food processing, hygiene-sensitive environments, industrial operations, and household applications where cleanliness and protection are essential.

Application

- Food Processing
- Hygiene
- Industrial
- Household
