CleanShield

CleanShield Food Grade Spout Lid PSL20

The spout lid converts a compatible food-grade pail into a more controlled dispensing container. Its resealable opening allows liquids, powders, or ingredients to be poured without removing the entire lid, helping reduce mess and unnecessary exposure. The secure closure supports organized storage between uses and improves convenience in repeated dispensing routines.

Applications

- Food ingredients storage
- Food processing and packaging
- Chemical and industrial materials
- Liquids and powders storage

Technical Specifications

• Colour	White Blue Green Yellow Red Black
• Material:	BPA-free Polypropylene (PP)
• Capacity:	20 Litres
• Lid Type:	Spout Lid
• Design:	With spout opening / Resealable spout cap
• Top Outside Diameter:	295 mm
• Country of Origin:	China

Features

- BPA-free polypropylene
- Food contact material available
- Integrated spout opening for easy pouring
- Resealable cap for convenient opening and closing
- Leakproof design
- Tamper-evident lid compatibility
- Multiple colour options

Packing
