CleanShield

Medium Duty Scrubbing Sponge

SP0710

The scrubbing sponge combines absorbency with controlled abrasive cleaning for everyday kitchen and food-service work. Its dual-purpose construction handles spills and surface wiping while providing enough scrubbing action for stubborn residue. Comfortable to hold and durable through repeated use, it supports efficient cleaning of cookware, utensils, equipment, and general work surfaces.

Application

- Working at Food Industries
- Heavily Baked-on Food Removal
- Kitchen Utensils
- Kitchen Work
- Household

Technical Specifications

- Size: 5.75" × 3.25" × 0.75"
- Weight: 26.5 g (+/- 2 g)
- Material: Nylon + Cellulose

Storage & Handling:

Store in original packaging in a cool, dry and well-ventilated area, away from dust, direct sunlight, moisture and excessive heat above 100°F (37°C).

Features

- Tough fibers and abrasives clean grills and ovens and remove baked-on food
- Non-rusting, resilient synthetic fibers for durability and long-lasting use
- Abrasive minerals selected for superior scouring performance
- Abrasive particles distributed evenly for consistent cleaning performance
- High-quality bonding resin system resists degradation from hot water, detergents, and normal cleaning liquids

Packaging

10 PIECE/BOX PIÈCE/BOÎTE x 2 BOX BOÎTE = 20 PIECE PIÈCE
