Heavy Duty Black Scouring Pads

SP3550B-H

The scouring pad is built for aggressive cleaning where ordinary pads cannot remove heavy residue. Its open mesh structure reaches into uneven surfaces, rinses out readily, and remains easy to grip during demanding pot and pan work. The dark colour also helps identify it as a dedicated heavy-duty tool within colour-managed cleaning programs.

Applications

- Pot and pan cleaning
- Commercial kitchen cleaning
- Food service areas
- Cookware and utensil cleaning
- Janitorial cleaning

Technical Specifications

• Colour:	Dark Blue
• Material:	Nylon mesh scouring pad
• Type:	Extra heavy duty scour pad
