CleanShield

Safety Vest – High Visibility Safety Vest VYE11

The high-visibility vest helps workers remain noticeable around traffic, loading areas, construction zones, and busy industrial sites. Its lightweight mesh body allows airflow and layers easily over work clothing, while reflective and fluorescent elements improve recognition from several directions. A simple front closure supports quick issue and removal across changing work assignments.

Application

- Food Processing
- Fish & Seafood Processing
- Meat & Poultry Processing
- Fruits & Vegetable Processing

Technical Specifications

• Color	Yellow
• Body Fabric:	110 g, 100% Polyester Mesh Fabric
• Contrasting Tape:	105 g, 100% Polyester Solid Fabric
• Hook & Loop Closure:	100% Polyester
• Reflective Tape:	100% Polyester Fabric with Glass Beads

Sizes	Length ± 3 cm	Chest ± 2 cm
M	65.5	63.5
L	68	66
XL	68	71
XXL	70.5	76

Keep dry and well ventilated to avoid folding pressure and pollution. It is generally recommended to replace reflective clothing every six months. During summer, due to strong light and high temperatures, replacement every 1–3 months is recommended to maintain effective warning and protection.

Features

- Class 2 garments are designed for workers exposed to traffic speeds above 25 mph and below 50 mph.
- Provides enhanced visibility for workers in traffic or roadway environments.
- Offers full upper torso coverage.
- Includes fluorescent striping on the front, back, and shoulders.
- Provides at least 50% side coverage for improved visibility from multiple angles.
